This event has an end goal, better known as death zone where all players in there dedicated server are required to battle is out in all out battle royale. Forced upon by a corrupt dictator

Competition

Here are some of the few games that we thought posed most threat to our product but challenge us as well to make something unique and different than the rest.

t

Features

We've made our stunning map of london entirely interactive for the player. If you feel like crashing an enemy into the london eye you can do that or if you've always wanted to experience the royal treatment players can enter buildings such as Buckingham palace and race right outside the queen's doorstep. London mayhem introduces a plethora of ways to play. Its up to you the player to decide how you race.

gameplay

For London Mayhem we have implemented new and exciting gameplay which we are positive players will enjoy.

Players will view and drive their vehicle in third person as a set default. If the player so chooses you can adjust the camera to drive around london in the following.

- First person cockpit view

- Bonnet view

- Birdseye (Deathzone only)

Shadow system.

fire system is a easy and mesmerizing set of instructions that helps shape the original gameplay that players will experience first hand in London mayhem.

We wanted to implement not only a gripping racing game but also a gripping action/fighting game.

you can command your avatar to do feats never imagined before in a racing game of this spectrum. Some of these include, leaping from car to car, slow precise quick time events, simultaneous action Regardless players will obtain an experience never seen before because of the shadow. system.

Target Audience

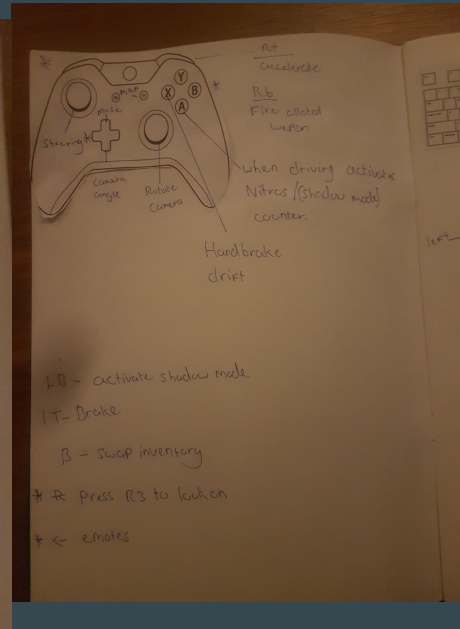

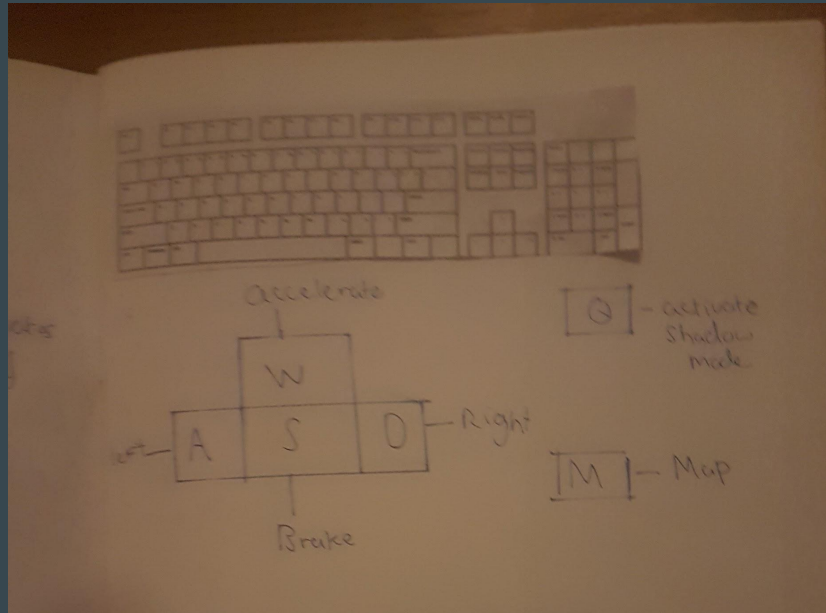

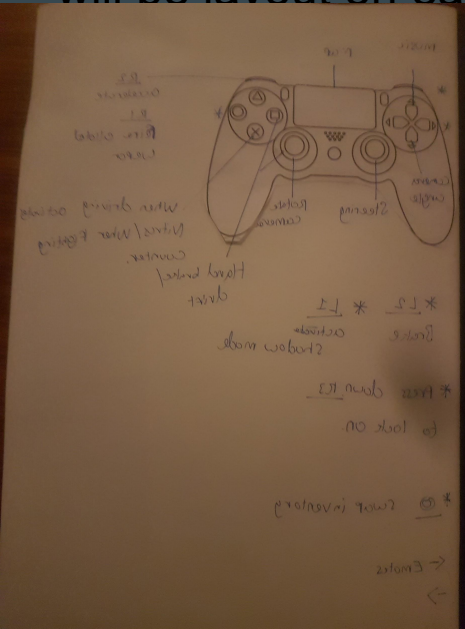

After good deliberation and discussion we have all come to a final verdict that this game should be aimed for players 18 and thus giving it an age rating of PEGI 18.

Many factors took into account as the violent music, freedom of solly online play and the introduction of our fire system creating new and graphic combat visuals only suitable for those over a certain aim.

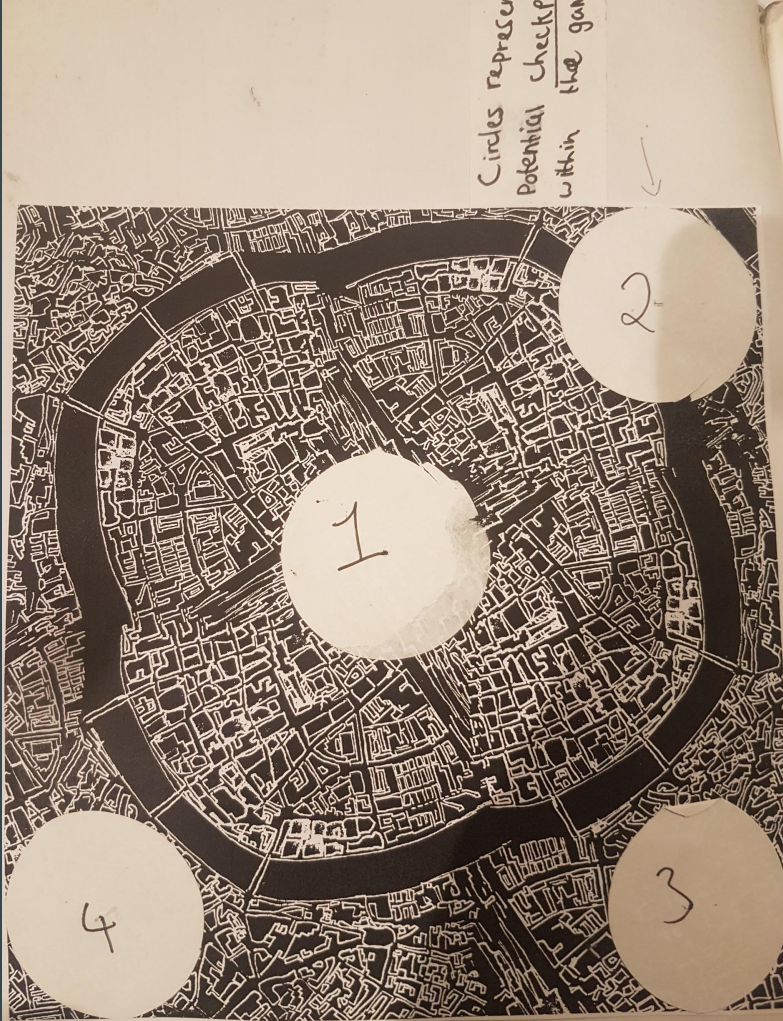

CONTROLS

Since London Mayhem Features cross platform gameplay across the main three consoles we have taken the liberty of showcasing rough draft of how the controls will be layout on each major system including Pc.

Budget

Since this game is the first of its kind we didn't want to oversell it. For that reason we are selling at a retail price of 35 pounds instead of the typical 50.

We are also adding a deluxe edition with a retail price of 50.

Legal and ethical Issues.

London Mayhem as I stated earlier will define the genre as a whole. On our step to revolutionizing the game we fully take action and responsibility of the content being produced.

I can personally assure you all that our content in no way shape or form has be publicized to offend or trump anyone.

In the UNLIKELY event that a situation like that may occur It will be imperative as my first priority to rectify the problem in anyway I can.

PURPOSE.

Since London mayhem is a racing game there will be no unfair advantage to a so called dominant software and each platform will run the same each achieving a capped fps of 60. Don't be deceived by the tone of this game. Although it is racing game it is not for the faint hearted.

This type of game is aimed for those who have fire in there blood. For those who dare step into the world of dominance and destruction Our dream here at TnM is for this game to revolutionize the genre of racing. I don't want people to look at racing games and assume it just upgrading and racing. We want this game to widen to a bigger democratic. We want it to contain the fundamentals of the racing genre but however mix in the thrill of survival and openness. We want the player to feel total freedom and confidence in his/her racing, and that's where London Mayhem Tick all the boxes.
